

Pet Assure Plan Overview

Here's how Pet Assure works to give your employees savings on veterinary care.

After Your Employees Enroll

- 🐾 Welcome letters and member ID cards will be mailed to your employees' homes.
- 🐾 If you provide your employees' email addresses, they will also receive a welcome email with a link to a digital card that they can use immediately after their start date.

How Your Employees Use the Plan

1. Employees take their card to any participating veterinarian (available in all 50 states and Puerto Rico). They can search for participating vets at www.petassure.com/search.
2. Employees receive an instant 25% discount on all in-house medical procedures at every appointment.

Important Facts and Perks for Pet Assure Members

- 🐾 Employees can register their pets in the free lost pet service and receive ID tags for each of their pets.
- 🐾 Pet Assure covers every type of pet with absolutely no exclusions. Even exotic pets or pets with pre-existing conditions are covered.
- 🐾 Pet Assure is not insurance, so there are no claims forms and no reimbursement.
- 🐾 If an employee's vet is not currently participating, they can invite their practice to join at www.petassure.com/search.
- 🐾 Employees can enroll anytime during the year. They can opt out after the 90-day minimum enrollment period (waived if a pet passes away).
- 🐾 If an employee leaves your company, they can continue at the discounted rates by logging into their account at www.petbenefits.com.
